Dear Madam,

As we discussed, the electrical points were not available to complete the system setup. We inquired with Mr. Ajit about this, and he mentioned that his team would handle it. If I had known that charges would be deducted from my invoice, I would have waited for the electrical points to be ready while our team was on-site.

Now that the installation is complete and confirmed with a signed report, I'm concerned about how to address the charges, which stemmed from factors outside my control. We successfully installed the cameras, rack, and DVR, but the commissioning was delayed due to the lack of electrical points.

I kindly request that you consider this situation and look into the possibility of adjusting the charges accordingly. Your understanding and assistance in this matter would be greatly appreciated.

Thank you for your attention, and I look forward to your response.
