Great to see. May need to align with KPIs we need for PWT. Also I wasn't able to open the link despite my TFS ID, due to some license issues.

Subject: Power BI Dashboard for Daily Sales Reporting

Dear All,
Please find attached our new version of daily sales reports on power BI, this is a step we have taken towards our automation goal.

This report is designed to provide insights into our daily sales performance. This dashboard is based on the inputs received from regional cashiers daily. This report will allow management & teams to access sales data at various cuts quickly and efficiently. We have attached two PDF reports for **Sep 2024 sales** (1. Including JV markets and sub-lease sales & 2. TFS markets excluding sub-lease sales) and the excel for ease of reference.

Key Features of the Dashboard:

- **Daily Sales Summary:** Comprehensive view of sales metrics on summary page.

- **Overview Markets & Outlets:** Market wise & Outlet wise sales trends. Filters can be used to derive data at specific cuts and tailor the report as per needs.

- **Trend Analysis:** Week on Week Trend Analysis for Sales and ATVs.

You can access the dashboard via [https://shorturl.at/TRQQF].

If you have any issues while accessing the link or require further details on how to use the dashboard, please feel free to reach out to me.
