Harish - The offline or Airport Menu is different from the cloud kitchen menu and this is the first offline store coming up in South .

The secondary indenting is an output metric of primary indenting which needs a month of lead time - While stocks in BLR would be sent via the Coldex truck today , stocks which are not there at the DC would be airlifted by Coldex , TFS taking this additional costs.

Best Regards,  
Saurav

Hi ,

When has the projections been shared with Coldex team by TFS team for the launch of this store? Has the TAT been followed of 35 days ? Also, the category mapping of each SKU has not been done , Vegetables are in the chilled category and would be fulfilled at a local level which is the standard industry practice.

Best Regards,  
Saurav

Need your intervention in clarity of supply of product % is still not clear, also holding ratio of SKU's in warehouse for ease of supply for coming 30-40 days which ensures availability of products 24\*7 in restaurant have no visibility.

Suggest to share stock level @BLR warehouse of Coldex & holding days of each SKU's

Note: Restaurant is ready for trials & we haven't initiated trial due to non-availability of stock in restaurant, this needs urgent attention.
