Dear All

pfa

1. cad for the store
2. all pdfs from the cad set
3. boq as per our understanding- kindly get back if anything needs to be added to it.
4. material specification sheet as per brand guidelines.

There is a discrepancy in the measurement layout sent to us, the width of premise is given out to out 6ft same has been considered. the depth does not match with the measurements in mm ( acc to mm the store length is 9'3" out to out- dwg mentions 8'-6"). We have prepared the set as per mm dwg.

Kindly get the appropriate logo and design for main board and other VMs from the branding agency- the cad shows a representative image.

Please get back to us in case of any queries.

Dear PUshpak,

Thank you for the help in onboarding our tender, please let us know the next step wrt these deliverables, as per PO we have completed our set.

**Regards,**
