Dear Mr. Gurvinder / Mr. Prakash,

Please find attached the complete set of documents related to structural docket. I am attaching them once again along with the balance drawings just in case any document is missing with you.

- 1) Design sheet
- 2) Staad model
- 3) Structural drawings - 4 sheets
- 4) Bill of materials - excel sheet

For Gurvinder alone - the structural drawings in cad format. Please do not release the cad drawings to site for execution.

With this we have completed our scope of work for this project.

Dear Gurvinder,

Please find attached revised column beam layout based on the revised equipment shared with us.

- 1) A few columns have been shifted and the beam layout has been completely revised.
- 2) The RO plant and water tank has been moved to suit the existing beams. We presume that the RO plant and water tank will be mounted directly on the chequered plate platform. Please confirm
- 3) The extent of the chequered plate has been marked in the same drawing. please confirm. Hope access to go upto the platform has been looked into, as we will not be able to extend the chequered plate beyond that shown in the drawing. The weight of chequered will go beyond our design loads if

extended. So if you need to extend, a catwalk to the nearest ladder may do so. Also please review the extent of chequered plate around the equipment and see if we can minimise the same.

4) Please note that the beams in green and magenta colour are connected face to face while the orange colour beams are continuous at the bottom

Please review the beam column layout and confirm for us to proceed with the design.

Regards

Dear Gurvinder,

Please note that removing under-counter chillers is not a viable solution. Kindly work with your kitchen consultants to provide us with a workable solution, as we have already provided our equipment requirements.

Thank you.

Prakash Mistry

Dear Prakash,

As discussed on call today, we removed two under-counter chillers to achieve workable ht. for the Table Top Hot Plate, GN pan & induction near the live kitchen window.

The revised layout and kitchen equipment list is attached for your approval.

Dear Gurvinder,

The 3D render looks aesthetically pleasing.

as previously specified, ***our budget is limited to 2 crores***. However, based on the 3d design, it seems that we may exceed the budget. Kindly confirm this observation.

and, as per our earlier discussion , it was agreed that the false ceiling should be partially open to align with the existing services in line with the airport ceiling. However, as per 3d render it is deemed necessary to modify the entire services before closing the ceiling – please check and confirm if this will be within budget.

Thank you,

Prakash Mistry.
