Dear Chetan/Stephen:

It is very unfortunate that despite Team ID details being shared on 10th (mail attached) the team has to wait the entire day today.

We had to incur loses due to cancellation of trip a few days back.

This not only affects are work-flow but also has repercussions on the finance.

There are quite a few issues which are still unsolved despite sending repeated mails.

Request you to kindly get back how can we work together to make these seamless.

Scaffolding is not our scope-of-work, it would have to be provided.

Machineries used are all compatible to 230 V; kindly clarify 110 V to be used.

For LED Drivers, to obtain 12 V output, we are required to have 230 V supply.
