Dear Prakash ji,

As discussed over the phone thank you form confirmation below points.

- 1) This is inhouse design so we don't have a 3D view for the same.
- 2) There is no MS structure flooring for the kiosk we are using airport flooring and will just cover with anti-skid rubber matt flooring.
- 3) Open MS structure will be ivory powdered coated.
- 4) There are three side full height partitions finished with laminate, only the front side is a low height partition.

Thanks & Regards,

SAndeep

Dear Prakash ji,

We have received the design set for Third wave coffee at Trivandrum airport.

But in the design set 3D view is missing. Can you share the 3D for reference, it will be helpful for us to build the kiosk.

Thanks & Regards,

SAndeep
