Hi Senthil,

Our relation is going maximum with oral confirmations and we are also not keenly looking on commercials if any small changes asked by TFS and any support required after office hours also.

We have agreed ok to provide one api to GM in the month of Jan/feb 2022 where we charged 30k. After that if you see back and forth mails requirement changes for them to make that API live in BIAL network or website and you can see all the efforts we put in that till now too. Regarding this I have informed to Tanmay once on call that efforts we are putting more and there will be extra charges and he asked me to send mail to Nikhil. Somehow it got carried away and missed.

@tanmay please confirm once.

I will leave it you Senthil as you are the one mostly worked with us along with GM and BIAL meetings.

Dear Team,

Could you please share the effort rendered for API part and have sent any commercial proposal for this activity earlier. If yes kindly share with us once.
