Hi Shama,

There will be a cost to doing the revised renders.

Please see the 3 previous renders, we had done for this project. As I understood, from the drawing you shared in the below email, only the first 2 renders need to be updated. (e.g., The layout changes will not be visible in the 3rd render)
Basis that understanding, we will need to revise/ Redo, 2 x renders

There will be a cost of 12,000/- per render, i.e. – $12K \times 2 = 24,000/-$ total. We will need a PO with 100% Advance payment from TFS before submission of renders

Please do revert to me & Anil if you have any questions

Warm Regards
Naren

Dear Naren,

Based on our discussion last week, please find attached the revised layout. We would like you to generate the revised renders for this Brioche Doree outlet in BLR T2.

Regards,

Shama Nair

Dear Naren,

Please find attached revised file.

Background - The current displays are inside the outlet and looking at the passenger flow anyone can easily miss them. Hence to increase visibility, we are adding this display inspired from Brioche Doree at Riyadh.

- Also, when you add the l-shaped unit, what happens to the Grab & Go behind? Do we remove the G&G – G&G removed
- Also, I am assuming that the 'L' shaped unit will be ambient (i.e. Not chilled display) – Cold Diaplay
- Finally, the curve shape may be problematic due to the finishes below...Can we go with all straight lines as you showed in the photograph shared – L shaped display added in drawing

Regards,
Shashank Mahadik

Hi Shashank,

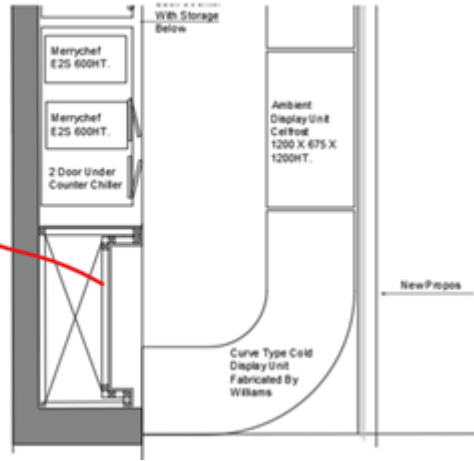

Could you provide some context?

- Also, when you add the l-shaped unit, what happens to the Grab & Go behind? Do we remove the G&G
- Also, I am assuming that the 'L' shaped unit will be ambient (i.e. Not chilled display)
- Finally, the curve shape may be problematic due to the finishes below...Can we go with all straight lines as you showed in the photograph shared

Warm Regards

Naren

Dear Naren,

We want to add a L-shaped display in Brioche Doree outlet made at Bangalore T2. The layout is attached for your reference.

Please suggest how to go ahead as we need to submit the render for BIAL approval.

Regards,
Shashank Mahadik
