### DESCRIPTION

### SPECIFICATION

ARISTO 65 L 456x405x720 mm HDPE Blue Center Foot Pedal Dustbin with 2 Wheels. A dustbin, also known as a garbage bin or trash can, is an essential household or commercial item used for the collection and disposal of waste materials. Dustbins come in various sizes, shapes, and materials to accommodate different needs and environments.

Typically made from durable materials like plastic, metal, or sometimes even wood, dustbins are designed to withstand the rigors of daily use and exposure to waste materials. They are often equipped with a lid or cover to contain odors, prevent pests and animals from accessing the contents, and maintain a tidy appearance.

Dustbins are available in different capacities, ranging from small bins for individual use to large bins suitable for communal areas or public spaces. This variety allows for efficient waste management, ensuring that an adequate amount of waste can be stored before requiring emptying or disposal.

Some dustbins feature additional features for convenience and hygiene. For example, pedal-operated bins allow hands-free opening and closing, reducing the risk of cross-contamination and promoting cleanliness. Others may have wheels or handles for easy mobility and transportation.

Dustbins may be designed for specific waste segregation purposes, with multiple compartments or color-coded lids to encourage proper separation of recyclables, organic waste, and general waste. This helps promote eco-friendly practices and simplifies the recycling process. Regular cleaning and maintenance of dustbins are important to prevent unpleasant odors, bacterial growth, and pest infestations. Many dustbins are easy to clean and can be washed with water and mild cleaning agents to maintain hygiene.

In summary, dustbins are essential tools for effective waste management and cleanliness. With their durability, capacity options, lid features, and potential for waste segregation, they provide a practical and hygienic solution for the disposal of various types of waste. By encouraging proper waste disposal and recycling, dustbins play a crucial role in maintaining a clean and sustainable environment.

Buy ARISTO 65 L 456x405x720 mm HDPE Blue Center Foot Pedal Dustbin with 2 Wheels online in India at wholesale rates.
