HI [@Nikhil Bhushan](#)

Below are points we discussed:

1. Make and Model of Laptop / Desktop already shared with you which is currently we are procuring, and same needs to be procured so that will not have any issues during migration.
2. Regarding license / software, we should procure only bare minimum as required, considering we are not getting EA rates as of now.
3. Please communicate to us regarding all your infra/license and software requirements with configuration, quantity and rates, we will revert to you with our recommendations.

Let us know if there are any further issues.

Regards,
Satish Panchal

+ Gaurav and Venu

Dear Akshay, Venu,

We have been going in circles on multiple approvals and still have no resolution

We will NOT be able to create any @semolinakitchen ids, as we are out of licenses and have been requesting for additional purchase for last several day

This will lead to disruption of smooth operations and on-boarding for multiple Semolina locations

Request your intervention to get this concluded

Regards,

Nikhil
