Dear Rajesh,

As discussed, Integration for shared API can be done in 15 days. But my quote was based on additional activity like pulling the data of Info code entry and to make sure that data pulled at your HO also get posted through statement posting. We may need to make some changes in the API so that statement could be posted and financial could be updated.

Please try to make it for 20 days so that quality work could be done.

Thanks & Kind Regards,

Dear Rakesh,

As discussed we have got quote by more three partner and all have given below 15 days .

This time I have taken prior approval by VP IT to go with Trident and believe me if this task goes successfully then gradually we will involve Trident completely with us .

So please send me revised quote to raise PO.

Dear Rajesh Ji,

I have gone through the document. The integration will take around 25 man-days and total cost would be around 2.5 lacks + GST.
For Integration, we need one table, one code unit and one page in your Navision Database

Thanks & Kind Regards,
