Subject: Re-fabrication of LED standee

Dear Bhavin,

I trust this message finds you well.

Following our recent discussion, please find attached the quote for the re-fabrication of the existing LED standee, extending it to a height of 7.34 feet and a length of 2 feet. Opting for the purchase of a new screen with the same dimensions would incur a cost of ₹147,554 plus 28% GST.

We recommend considering the modification with the existing screens, as this approach is advised to maximize the return on your investment.
