Dear Faisal,  
Greetings for the day!

While taking random walkthrough of Kitchen and pot wash area, following things need implementations and continuation on some things to improve the hygiene practices-

1. Good Quality Scrubber- Current scrubber quality is very poor.
2. Full Hand Gloves Not available - Full hand gloves to prevent any scratch/injury and continuous water & chemical contact with skin while washing the utensils.
3. Yellow aprons- Receiving small size, Need little bigger than current.
4. Bottle washing brush- For sauce bottles HK staff needs bottle washing brush.
5. Good Quality Handle brush for scrubbing the matts, racks, drain covers. Without handle brush causing the injury to staff while scrubbing the edged tools.
6. Gumboots- Individual pair required for all female HK staff. To prevent the skin allergies also.

Please connect with Purchase team regarding these and get it sorted.
