Don't we need a coffee grinder with a semi-automatic machine?

Dear Akshay

Attached please find the makes of both machines.
Please proceed with Group 2.

Secondly on the Ahmedabad Outlet -

This is a large café of 1781 Sq ft with 57 Seating. There is potential to serve larger crowd and growth as what we have seen with the government initiative in making Gujrat and Ahmedabad business hubs.

We can start with Eversys here, In case there is any requirement of change/replacement we can discuss during the second café proposal.

PS : The projected transactions for all three outlets are very low for the second year. You are projecting only 17% growth over two years, which is very low when we look at the expected passengers movement. However as discussed earlier, we want to partner with a win win mindset keeping both your P&L and our brand value in mind. Please accommodate.

As understood the previous year's passenger traffics have been promising.

Pax Traffic	FY 2021-22	FY 2022-23
AMD Domestic	50,45,473	85,97,627
LKO Domestic	27,11,238	43,47,997

Thanks and regards

Thanks Shyam.

Can you also pls share the model number for the machine and the make & model number of the grinder?

Also, the projected orders in Ahmedabad are lower than the LKO. Requesting if the same machine can be allowed for that location as well.

Akshay

Dear Akshay

We have the right intension to partner with you for the current proposed locations and future proposals. However all the same would depend on the initial success of our outlets and your P&L.

Considering the same would request data in the below format to arrival at the right rational -

SI No	Airport	Location	Initial Transactions	Transaction after 2 years	Type of Machine
1	Lucknow	Departure	132	155	Semi Automatic
2	Lucknow	Arrival	140	165	Semi Automatic
3	Ahmedabad	Forecourt	110	130	Semi Automatic

Thanks and regards

Hi Shyam
In reference to our discussion this afternoon regarding the coffee machines to be purchased for the upcoming outlets in Lucknow & Ahmedabad, I would like your approval on the use then the approved semi-automatic variant at these locations.

While I understand the elements of speed of service and the enhanced capacity that the Eversys Cameo machine brings to the table, I believe that the specification of this machine is too high for the locations. The outlets in question are in Check-in and arrival locations, with the projected average daily transactions of ~130. This investment made will not result in the desired returns and the machine also being underutilised.

Our team is already working in your Delhi stores and am sure that the rigorous training program that you will make them go through will make them great baristas who will be able to deliver the perfect cup of coffee every time, from a semi-automatic machine as well. To further ensure that the brand standards are met, we have onboarded some of your experienced staff who wanted to relocate to Lucknow. They also can be coaches to the team once the outlet opens.

Just to keep you updated, the outlets are expected to open on around 15th February in LKO and Ahmedabad will be in March.

I would request you to please approve the purchase of the semi-automatic coffee machine for these set of outlets in Lucknow & Ahmedabad so that the orders can be placed immediately.

Regards
Akshay
