

Hood Type Dishwashers

Designed For Medium Business Requirement

- Hood type machines are suitable for most food and beverage pantries due to high output (up to 1080 plates per hour) and ergonomics in design
- Pass through machines and corner installations save labour and deliver high output
- Suitable where budgets are limited
- Hood type machines are easy to clean and maintain due to good access to the tank and inner components
- Gives superior wash results

Washmatic™

Perfect choice for Pubs, Restaurants, Small Hotels, Cafeterias, Party Halls, Small Hospitals, etc. Powerful enough to wash all type of wares. Comes with 500 x 500 mm standard dish / glass rack which can accommodate 18 full plates/ 36 glasses at one go. Larger clear entry height of 420 mm allows washing of large plates / trays and Gastronorm pans. Easy to operate as the machine is fully automatic with electronic controls. Slide in / out operation eliminates any physical effort in loading and unloading. Theoretical capacity of 1080 plates per hr makes it suitable for daily washing requirements.

Clean and hygienic

The wash tank is made of AISI 304 grade deep drawn stainless steel, which eliminates any welded joints and problems arising from that. Deep drawn wash tank with round corners facilitates easy cleaning. Easily removable basket holder, wash and rinse arms, filters etc. for easy cleaning. Unique air break prevents back flow of contaminated water to the main water line.

Auto cycle

The machine cycle automatically starts on the closing of door when set to auto mode. If the machine is not up to temperature, it will auto cycle as soon as correct temperature has been reached. No buttons to push. Leaves operator time to perform other tasks

High temperature wash and rinse

Washing is done at a temperature of 60°C with detergent water; this ensures 100% cleaning of oil residues. Final rinse using fresh water removes any detergent residues on the plate. It is performed at 82°C + to kill all germs, ensuring HACCP compliance. Specially designed spray nozzles ensure minimum evaporation of sprayed water and maximum contact with wares being washed.

Hood Type Dishwashers

Model : WM - 500ECO-S / 500ECO

Available in single phase and 3 phase to suit your power supply requirements. Control panel and components are placed at the bottom. ECO series is an economical model with basic features for those who are looking for a solution for their dishwashing requirements.

Model : WM - 600ELE

ELE series is the most preferred model due to its rough & tough design and features. This series is equipped with all features a dishwashing machine should have. The control panel has mechanical switches while the brain is electronic board. This combines the toughness of mechanical components with the versatility of electronics.

WM - 500ECO-S / 500ECO

WM - 600ELE

Features

- Deep drawn wash tank
- Thermostop function
- Dry run protection
- Electronic controls
- Rack size 500*500 mm
- 4 wash programs
- Low power consumption
- Low dB levels
- Insulated boiler
- Phase monitoring
- Temperature indicators

Standard Supply

- Rinse injector
- Detergent dosing pump (only in WM-600ELE)
- 2 Racks 500*500 mm
- Inlet pipe
- Drain pipe
- Main lead
- User Manual

Model No.	500 ECO-S	500 ECO	600 ELE
Capacity (Racks / Hr)*	45	60	60
